TECHNICAL DETAILS

LOCATION

The island of **Capri**, where this apartment for sale is located, is an island in the Gulf of Naples and is one of the most picturesque and visited locations in Italy.

The island's coast is home to numerous coves, bays, and steep cliffs. The caves, hidden beneath the cliffs, were used by the sumptuous villas that were built here during the Roman empire. The most famous of these caves is the **Blue Grotto**, where the light bounces off the water were described by many writers and poets. The awe-inspiring "**Faraglioni**," tall cliffs that emerge from the crystal sea, are noted symbols of the island and create a spectacular scenographic landscape that can be admired from the terrace of this penthouse for sale.

Capri is still home to several animals and plants, including some that are very rare and can only be found on the island, such as the lizard of the Faraglioni that lives on one of the three cliffs.
